Email: akhilagundekari4238@gmail.com

I'm a motivated Master's student in Computer Science at Oklahoma City University, skilled in **UI/UX design, front-end development** (HTML, CSS, JavaScript), and cloud technologies (AWS, Azure). I also bring hands-on experience in **technical support**, including diagnosing and resolving hardware, software, and network issues, managing service desk tickets, and assisting with system deployments and end-user training. Through roles as a **Presidential Ambassador** and **Graduate Student Coordinator**, I've developed strong leadership, project management, and communication skills. I thrive in fast-paced environments where I can apply both technical and interpersonal strengths to drive efficiency, support users, and improve system performance.

EXPERIENCE

Oklahoma City University

Presidential Ambassador | Aug 2024 – May 2025

- Represented the university at official events and campus functions.
- Led campus tours and networked with prospective students and stakeholders.
- Assisted with event coordination, initiative promotion, and administrative support.
- Maintained confidentiality and professionalism in all interactions.

Peer Mentor | Sep 2024 – Oct 2024

- Mentored undergraduate students in academic and personal development.
- Facilitated student engagement through resource sharing and support sessions.
- Encouraged inclusiveness, independence, and goal setting among mentees.
- Monitored student progress and assisted in resolving academic challenges.

Graduate Student Coordinator – Office of Diversity, Equity, and Inclusion | Oct 2023 – Sep 2024

- Participated in workshops and in-service meetings to enhance personal growth and professional development. Entered data, generated reports, and produced tracking documents.
- Answered and made calls, scheduled appointments and maintained records and files.
- Enhanced student experience by organizing and coordinating engaging events and programs.
- Contributed to an overall positive campus experience by consistently demonstrating professionalism in all interactions with staff, students, and faculty.
- Coordinated diverse events, from small workshops to large events, showcasing adaptability and versatility.
- Collaborated with campus departments for seamless integration of events into academic life
- Delivered memorable events by addressing all logistical details, from venue selection to catering management.

- Evaluated program effectiveness through regular feedback surveys and assessments, implementing improvements as needed.

EUT HUB Technologies
UI/UX Developer
Full-Time | Jan 2021 – June 2023
- Built responsive, accessible web apps using HTML5, CSS3, JavaScript, and React.
- Designed and implemented reusable UI components by WCAG guidelines.
- Worked in agile teams, participating in stand-ups, sprint planning, and retrospectives.
- Collaborated functions for end-to-end delivery, including UX and QA teams.
- Reviewed peer code conducted cross-browser testing and documented front-end systems.

UI/UX Developer Intern
Internship | May 2020 – Dec 2020
- Collaborated with designers to convert Adobe XD/Figma mockups into HTML, CSS, and JavaScript components.
- Supported layout structuring, navigation, and UI behavior development.
- Provided IT support—resolving hardware/software/network issues and managing service tickets.
- Assisted with system imaging, configuration, and user training.
- Contributed to QA testing, onboarding, and maintaining UI standards documentation.

SKILLS

- **Tools:** Canva, Adobe XD, HTML, CSS, JavaScript, AWS, Azure, Microsoft Suite, Asana, Jira, Service Desk Systems, Imaging Tools
- **Soft Skills:** Leadership, Project Management, Technical Support, Troubleshooting, Communication, Team Collaboration, Adaptability
- **Technical Skills:** Front-End Development, UI/UX Design, Hardware & Software Configuration, Network Troubleshooting, Web Application Development, Ticketing & Documentation

EDUCATION

Oklahoma City University   **05/2025**
Master's in computer science

Vaagdevi College Of Engineering   **08/2022**
Bachelor's in computer science
